Aluminium Casement 30,5mm Window

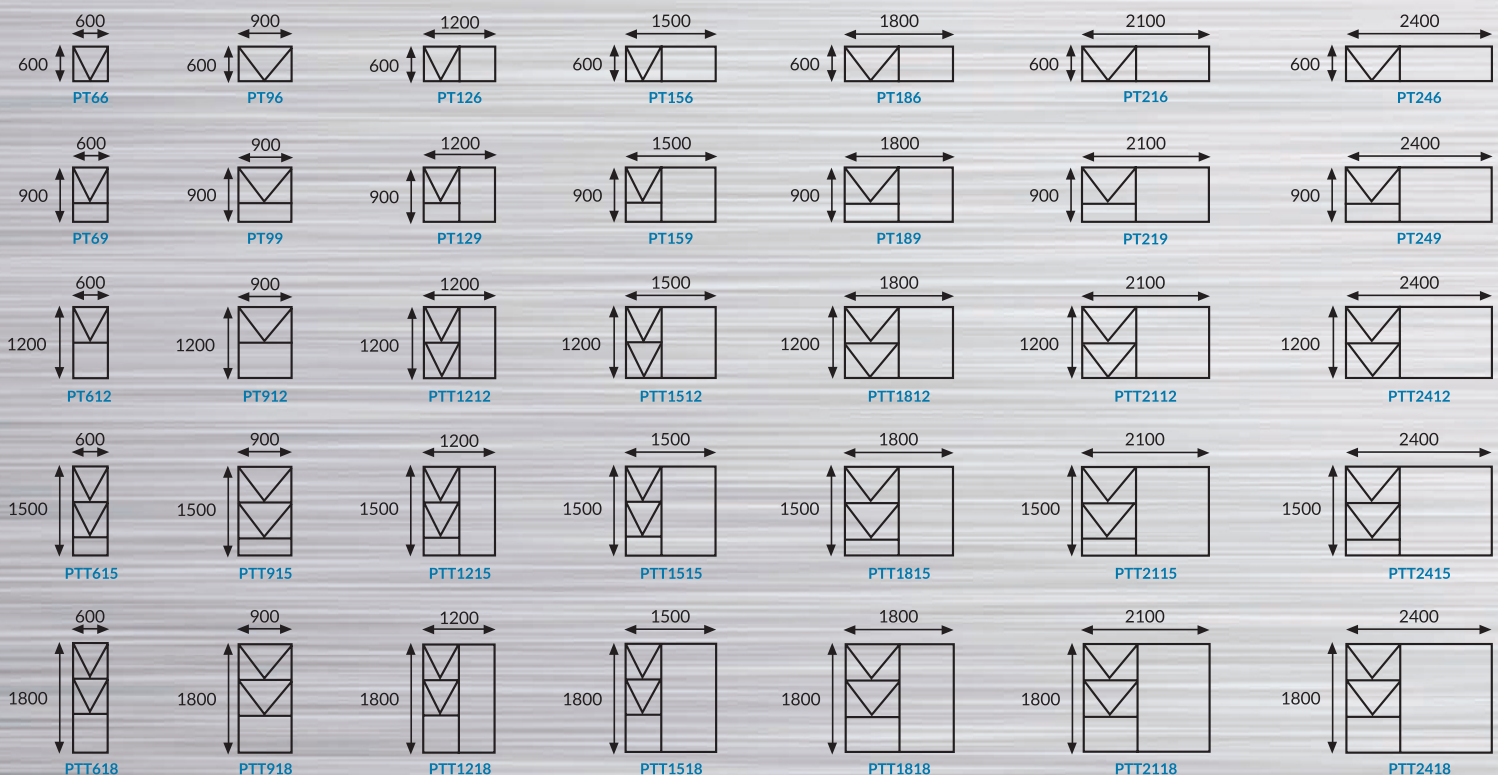

Special Features:

- A high quality low cost window requiring minimum maintenance.
- For use in residential and architectural projects.
- Project top hung sashes on concealed friction stays, all sashes are fitted with draught seal to prevent water and air infiltration.
- Window corners are mechanically crimped and sealed.
- All windows come complete with fixing lugs, handles, stainless steel screws.
- All windows are factory glazed to N part glazing regulations.
- All hardware to coastal specifications of 304 stainless steel quality.
- Windows available in a PT (one vent) – PTT (two vents) – P4TT (four vents) configuration.
- Viewed from the outside all vents as a standard on the left hand side, if vents are required on the right this needs to be specified.

Standard 30,5mm Casement Window Range

Maximum sash size: width 600mm height 600mm. All dimensions indicated are normal opening sizes. Deduct 10mm for actual overall window size. Windows 1800mm and wider get 900mm vents. P4TT windows get 600mm wide vents.
